

→ Personalised math

→ more engaging

→ physical puzzle / game

→ modular

→ AI math bot

→ low pressure

→ mathematics kit

→ to go over mathematics again, but different perspective

→ Something with coding

→ visual representation of coding

→ math memory

→ make it modular → so he cannot remember the cards answers

Too fast with maths:
modular, expendable, AI

ex:

$$\boxed{4} \leftrightarrow \boxed{2^2}$$

$$\boxed{9} \leftrightarrow \boxed{\sqrt{81}}$$

→ Art from maths

→ tool to make art with maths (formulas numbers etc) ← (could also be music)
→ combination of graphic design and maths
